ABOUT US

Olivico is a local family Bussiness established in 1990. We have 21 hectares of olives trees in Pucusana (60 km south of Lima) and since 2013 we added 50 hectares in Pisco (200 km south of Lima) to expand our love for olives and start a new passion in winery. Being organic and friendly with the environment is part of our company and lifestyle. We are employing people from the surrounding communities benefiting around 40 families.

Our olives are grown since the begining without the use of pesticides and chemicals, ensuring that you receive the purest, most natural product possible. They are carefully hand harvested and processed to maintain their fresh, vibrant flavor and nutritional benefits.

OUR FARM

By reforesting our little piece of desert coast south of Lima we are doing our part to preserve the environment. This desert has become an olive forest with its own microclimate, and has greatly increased its wildlife as birds and insects. To conserve biodiversity we have dedicated areas of pasture for our animals who are producers of natural fertilizers for the farm. We have more than 2500 trees (30 years old) of different varieties that give us our exceptional and unique table olives and olive oil.

OLIVE OIL

OLIVE PASTE

Our olive oil blend is made with a crafted combination of different olive varieties, each selected for its unique flavor and nutritional profile. Carefully harvested and cold-pressed. This blend offers a balanced flavor that is perfect to accompany any food, from salads to marinades your meats.

This olives pastes are made using only the highest quality olives, carefully processed to preserve their rich, complex flavor. We then add a special blend of herbs including oregano, rosemary and thyme, to create a rich, savory paste that is bursting with flavor.

They are incredibly versatile and can be used in a variety of dishes. Spread it on crackers or bread for a delicious appetizer, or use it as a flavorful base for pizza or pasta sauce.
